Hi! I'm a designer, Illustrator & Art Director based in Skopje. Over the past few years, I've been creating illustrations & design visuals for brands, apps, websites, and start-ups. Clients include Nike, Coca-Cola, Red Bull, Kraftwerk, UNDP, Skopsko Beer, Buzz Sneaker Station, Kabinet Brewery, Chesterfield and I've collaborated with multiple agencies and studios.

Previously, I spent +7 years working in marketing agencies executing both digital and offline campaigns for global brands like Dell & Diners.

Also... I like talking with (nice) people. I like to read but don't read that much. I love music but I'm probably listening to a podcast right now. ChillHop is always a go-to but I can't control myself when "Everybody loves the sunshine" is playing.
