PROFILE

My name is Nina, a 27 year old from Skopje, Macedonia.

My passion in art & design has been shown since my childhood, and I love creating and expressing myself in different ways.

Through studying psychology I learned a lot about decision making, problem solving and understanding human behavior which is exceptionally applicable in the UX world.

I am a highly emphatic person, I can easily consider things from different perspectives which is vital for finding the most effective and beneficial solutions.

EDUCATION

Bachelor degree

UKIM Kiril i Metodij FZF - Skopje

Institute of Psychology

- Graduation thesis: Association between deficits in emotion regulation, depression, anxiety, and eating disorders.

Certificate

Brainster

UX/UI Designer

- Initiation
- Discovery
- Analysis
- Tools: Figma & Adobe XD
- Design & user interface - UI
- Storytelling
- Front-end
- Case study
- UX Design in the real world

Successfully won a few hackatons, including a redesign for **Shu-Mi Berovo**, a leading provider of all-natural and organic honey products, and **Wortech**, a platform for tech companies to research market salaries, evaluate competitiveness, and offers young tech professionals valuable company information like employee recommendations and evaluations.
