

Mendrit Arifi

Web developer

The most important things I learned regarding developing and programming are consistency and need. Being consistent on trying to solve coding problems will always result on skills improvement, and the need for a better solution will bring an excellent product

Education

Computer Science / [UBT](#) Prishtina

Since October 2019

High School / [Xhevdet Doda](#) Prishtina

From September 2016 to May 2019
