Experience

Full Stack Software Developer

Avicenna4IT™

Apr 2022 - Present (6 months +)

- Developing front end website architecture and back-end website applications
- Designing user interactions on web pages
- Ensuring responsiveness of applications
- Working alongside graphic designers for web design features
- Seeing through a project from conception to finished product
- Designing and developing APIs

Full Stack Software Developer

Asseco

Jan 2022 - Apr 2022 (4 months)

- Collaborating with management, departments and customers to identify end-user requirements and specifications
- Producing efficient and elegant code based on requirements
- Troubleshooting, debugging, maintaining and improving existing software
- Compiling and assessing user feedback to improve software performance
- Developing technical documentation to guide future software development projects
- Development of front-end - With the help of HTML/CSS and JavaScript frameworks and libraries
- Design the backend of the applications

System Administrator

Infel KTV

Jan 2020 - Jan 2022 (2 years 1 month)

- Installation and configuration of software and hardware/ optic network
- Management of network servers and technology tools, monitoring performance and maintain systems according to requirements
- Designing optical network using CAD/CAM and configuration of ONU (optical network unit) for clients

Software Development Demonstrator

Innohub

Jun 2021 - Aug 2021 (3 months)

- Demonstration of writing and implementing efficient code
- Organizing courses regarding Software Full Stack Development ,preparing and delivering materials considering Software and Full Stack Development
- Checking and assessing work and giving feedback

CAM engineer

Hi Tech

Aug 2019 - Oct 2019 (3 months)

- Determining optimal tooling and cutting parameters based on material and setup, reading and interpreting blueprints, sketches, drawings, routing instructions, manuals, and specifications
- Understanding, designing and implementing work for manufacturing process
- Assistance in planning and executing manufacturing process, maintenance , revision and quality control on programs, tool sheets, and setup documentation
- Maintenance for the CNC Machine

IT Administrator

Infel KTV

Aug 2017 - Aug 2019 (2 years 1 month)

- Planning and development of the HFC (Hybrid fiber-coaxial) network, implementation, configuration and maintenance of devices (routers, switches, Casa System C3200 CMTS, Cable Modem DOCSIS 3.0)
- Monitoring of the network and care for the established connections with the ISP partners
- Create technical documentation for reference and reporting
- Maintaining and upgrading existing systems

Education

Seavus Education and Development Center

Web Development

Nov 2020 - Nov 2021

Faculty of Electrical Engineering & Information Technologies in Skopje *Computer*

Hardware, Engineer and Electronics, Computer Hardware, Engineer and Electronics

Sep 2013 - Jun 2019

Defended bachelor thesis under title: Methods for accomplishing maximal power in photovoltaic systems

Licenses & Certifications

Autodesk AutoCAD User Certification - Brainster

Full Stack Web Developer - Seavus Education and Development Center

Skills

ASP.NET , SQL , C# , JavaScript, jQuery , VirtualBox , HTML/CSS , Bootstrap , TypeScript
Docker Products , CAD/CAM, REST API, Git, Wordpress, AJAX, JSON, LINQ, Team Building, Time Management, Communication, Training, Quality Assurance , System Support, Problem Solving, Hardware, Electronics, Optical Networks , Maintenance and Repair.
