## New Media MK

I need to mention from the start that I had that amazing opportunity to work for a marketing agency (New Media MK), that cooperated with one of the biggest clients in my country such as Viva Juices, Mozart, Capitol Mall, Ramstore. I really gained there a huge experience and realized what graphic design actually looks like. Just for the record I also had the opportunity to work in a professional photography studio, with which I additionally started to love photography. Indeed, my experience there was crucial to my future career.

2019-21

## Brander

Sunco company established in California, its main activity is the production and sale of all kinds of light bulbs. Our main goal as designers was crucial to building the brand (creating blocks, web banners, and whole brand identity) and selling Amazon as one of the largest platforms on the market today.
