My name is Olivera. I am from Skopje, Macedonia. Highly invested professional, graduated from St. Cyril and Methodius University. My major was Computer Science and Automation. After that, I won a scholarship and lived and studied in France for a year and a half. My skills were furthered in the programming and Computer Science field. I am a kind, dedicated and loyal person. I have furthered my soft and communication skills. In my free time I enjoy exercising, running recently, watching movies etc.

## EXPERIENCE

- APR 2021 – MAY 2021

**MID-LEVEL DEVELOPER, M DH INSURANCE COMPANY**

During my short work here, I worked on one VB.NET application as a developer.

OPEN DATA, NOV 2020 – MAR 2021

**SOFTWARE ENGINEER, OPEN DATA SRL**

I started here as a Junior-Mid ASP.NET Developer, I developed my skills on ASP.NET. REST, CRUD, SQL Operations. I used VB and SQL SERVER.

OPEN DATA, NOV 2020 – MAR 2021

**SOFTWARE ENGINEER, OPEN DATA SRL**

I started here as a Junior-Mid ASP.NET Developer, I developed my skills on ASP.NET. REST, CRUD, SQL Operations. I used VB and SQL SERVER.

SEAVUS, DEC 2018 – AUG 2019

**SOFTWARE ENGINEER, SEAVUS**

I got this job on a talent program. I got enrolled as a Support Specialist but I was working mainly as a developer on their main program.

PELAGUS IT D.O.O, AUG 2018 – OCT 2018

**SOFTWARE ENGINEER, PELAGUS IT D.O.O**

I was working here as a developer and I learnt a lot from the team. This was a great team, the brainstorming was shared among the young stuff as well.

SAFRAN ENGINEERING SERVICES D.O.O, AUG 2018 – OCT 2018

**SOFTWARE ENGINEER, SAFRAN ENGINEERING SERVICES**

I started to work here and the curve went up but I got sick and home sick so I got back in my country. I worked mostly on UI problems.

INTERN

**SOFTWARE ENGINEER, SCHNEIDER ELECTRIC**

During my stay here in this wonderful country I was interning in this giant tech company. This was the

most stressful time of my professional life. I learnt to deal with different personalities of engineers and colleagues.

#### **SALES ENGINEER**

#### **SOFTWARE ENGINEER, INTYLER FIMACO**

This was my first job before finishing studies. I was super excited at this role. I was trained to be a Sales Engineer by my supervisor. I was giving presentation and training to technical stuff mostly in the energy disturbance industry. I was doing translation on technical manuals. This job is my fondest memory.

### **EDUCATION**

#### **MASTER OF SCIENCE ELECTRONIQUE ENERGETIQUE AUTOMATIQUE, PAUL SABATIER UNIVERSITY**

- I won the scholarship for a Master degree
- My major was Control Theory and Embedded Systems
- During my stay I enjoyed this country a lot, I was learning this culture, their customs, their mentality
- I did a lot of coursework on embedded systems and theories on different subject such as Control Theory, Theories On Stability, Flexibility etc.

### **SKILLS**

- I am good with anything with technology
- My programming skills are mostly based on web programming and embedded -, I constantly learn through different source of materials as well as team work
- Great communication, planning and listening skills
- I am great with writing
- I am a loyal person

### **ACTIVITIES**

I enjoy solo activities such as my hobbies like running recently, aerobic. I started also with team activities, I volunteering for rare disease people, people who are marginalized. I enjoy reading and writing and anything with personal growth. I believe every person deserves a chance of a decent life.
