

Daniel Brzanov

Web designer & developer • Graphic designer • UI/UX designer

About me

Daniel Brzanov

Designer & developer
delicon@proton.me
070 286 191

I am a versatile web and graphic designer as well as a web developer. I possess a unique combination of technical expertise and creative vision. My proficiency in tools such as **Photoshop**, **Illustrator**, and **Figma**, allows me to design visually stunning graphics, layouts, and user-friendly websites that are both functional and visually pleasing. I have a deep understanding of **HTML**, **CSS**, **JavaScript**, **PHP**, and **MySQL**, that allows me to code and implement those designs in a way that is both efficient and effective. I understand the importance of both **UI** and **UX** and I always strive to create a seamless user experience.
