# ABOUT ME

---

26 year old graphic designer from Tetovo, Macedonia. I am very passionate about Graphic Design and a creative individual. I like making designs from scratch (logos, posters, flyers, etc.) and bringing them to life. I am a self taught graphic designer who is not afraid to try different things and improve day by day. I love challenges and new opportunities and I would be very grateful to work with like minded individuals .

# MY GOAL

My overall goal is to make the best possible designs i can,in my own unique style.

To grow with the company and achieve big things. I want my style to project through my designs and to share it with the world.
