### ABOUT ME

Hi there, my name is Nenad, I am a hard worker and self-thought person that looks forward to learning new skills. I am an easy-going person, but also very strict about putting forward my best work, which includes; finishing on time, problem solving and simplifying tasks for optimal finished work.

Primarily my passion is photography, I especially enjoy portraits, fashion and would love to advance in boudoir photography. My passion about photography doesn't end there, after every photoshoot follows photo-editing so having my own style doesn't stop me from being creative and making new slightly different custom presets for each photoshoot if I believe it would fit better.

As far as photography locations go my next spot can be right in the city on a sunny day at the next street corner with a nice building and vegetation in the background. I love shooting in daylight preferably under shade, experimenting with shadows and patterns in the background.

Working in studio with studio lights wouldn't be an issue
