### Adress

AleksandarMakedonski 573  
Prilep, Macedonia

### Profile

I'm 21 years. As a creative person, I enjoy learning new things, every day when it comes to design. Currently, I am focused on UX/UI design and everything related to mobile and web design. My desire for design appeared at an early age. I am also interested in new design challenges, which would be of great importance to me in the future.
