PROFILE

An FCSE graduate student in Skopje, North Macedonia. My past experience include working with UX/UI design, front-end and back-end technologies. I consider myself to be very organized, timely and professional when it comes to my work and school life. I am very efficient in problem solving and producing the optimal results within my set deadlines. I constantly gain valuable knowledge through formal and informal education.

EXPERIENCE

Web Development Intern | Wordfella, Skopje

February - March; September - November 2020

In this company I was working as a web developer intern and I was included in two projects. For the first one I was working with front-end (HTML, CSS, SCSS with BEM methodology, WordPress) and back-end technologies (PHP). As for the second, I was working as UX/UI Designer and front-end developer.

Web Developer Intern | SRD Technology, Skopje

November 2017 - April 2018

As a web developer intern in a product-based company, I was integrating company applications which supported SAML 2.0, with our product. I was part of the Admin Portal to organize, manage and display the data about companies and users of a product. In the whole process I was working with TypeScript, HTML, CSS. (product – Saaspass)

Intern | GdiDATA, Skopje

May 2017 - June 2017

Purpose of the internship was finishing a project for a university subject. We had a training for one week to work with ArcGIS Software in the licensed company GisDATA in Skopje. Creating a digital version of a map of a local town Berovo in the interest of simplifying it and making the user experience friendlier, by mapping the features of the town, its buildings and attributing the features.

PROJECTS

Digitized Map – ArcGIS (2017)

Digitalization from the analog maps to informative, interactional digital map of a local town Berovo, with all distinct places and buildings.
