

# Mario Boskovski

## About me

For over 2 years I have developed a lot of interesting web applications mainly using NodeJs, ReactJs, React Native, Google Apps Script in combination with SQL/NoSql databases on backend and Javascript(jQuery, ReactJs, React Native) in combination with Bootstrap, Material Design(CSS Grid and Flexbox) for frontend.

I have successfully developed various applications including

Booking System,

Business Leads Scraper,

Amazon Scraper,

Google Script App for managing Projects and Employers,

E-Commerce Web Site etc.
