## About Me

My curiosity led me to explore web development independent of my studies and build interactive projects during my free time. I take great pleasure in embracing the chance to deconstruct complex problems, solve challenges, and create innovative solutions.

## Work Experience

### LambdaWorks Internship

sep 2023 - oct 2023 (4 weeks)

- Work on web application project using TypeScript and React.js
- Creating services using Axios for HTTP requests
- Using Styled Components for styling React components
- Redux toolkit for manipulating global states of web application
- React Router for client-side navigation in web application
- Basic concept of agile methodology
