Axapta Masters
- Dynamics/D365 Technical Support

2023-...

FEYDOM
- Creative Designer

I consider myself to be extremely fortunate, because my 'job' such as it is, generally entails doing what I love. I call myself a designer as it's a nice umbrella term for UX/UI design, Graphic design, Web design, although I spend a lot of time with pencil and brush in my hand creating some art and sketches. And my other love is my camera which I take almost everywhere with me so I can take photos.
