01 PROFILE

Hi , my name is Aleksandar and i am Front End Developer / from Macedonia with almost two years of experience. I am a very passionate and enthusiast person, i want to learn new things everyday. I started learning programming focusing on the Front End programming languages, I also took varios courses to improve and build my knowledge about programming. And i still continue to learn and improve my knowledge,

So far I have worked on several projects some of them can be seen on the git.

The projects I work on contain: JavaScript dominates as a programming language.

Framework-Vue.js, Nuxt.js, React.js, Next.js

Database- Firebase, commercjs, Strapi

Markup language- Html. Style sheet language- css, Sass, tailwindcss , visual studio as a tool ,and so on...
