01 PROFILE

I am a very passionate and enthusiast person, i want to learn new things everyday. I started learning programming focusing on the frontend programming languages. I also took various courses to improve and build my knowledge about programming. And i still continue to learn and improve my knowledge.

So far I have worked on several projects that can be seen on the git.

The projects I work on contain: programming language-JavaScript.

framework-Vue.js, React.js, Nuxt.js

Database- Firebase commercjs, Strapi

markup language- Css, SaSS, Html. visual studio as a tool,
