Letter of Recommendation

I have known Taxhidin Kadiri through his studies at University of Prishtina. He attended my Switching Systems class in spring semester 2011. I have had an opportunity to observe Taxhidin's participation and interaction in class and to evaluate his knowledge of the subject matter. In addition to his coursework, he showed interest in furthering his knowledge by working on an independent project for the class. Currently, Taxhidin is continuing Master level studies at Faculty of Electrical and Computer Engineering Department of Computer Engineering.

At a personal level, Taxhidin is a well disciplined student with a pleasant personality. He met the course requirements in the quantity and quality, putting in a lot of extra work every week. Throughout the course, Taxhidin demonstrated great perseverance and initiative. He was not only interested in and motivated to learn the material, but put great work into assimilating it to his own experience and developing his own ideas about each topic that we discussed.

I recommend Taxhidin as a good candidate for your program because I believe that he will make a significant contribution to your program and to our profession.

Please feel free to contact me for any further information.

Sincerely,
