

Renata Apostolova

Software tester

As part of the occasional bug bushing in my experience in the IT industry, I realized that QA should be something I could do fulltime. I am currently on the lookout for a starting QA position in order to begin the quest of professional bug-hunting.

- Defect reporting
- Java

Project Management

Faculty of Electrical engineering and informatics

09/2014 - Present

Skopje

Biology professor

Faculty of natural sciences

09/2008 - 06/2012

Skopje

WORK EXPERIENCE

Content uploader IT-Labs

09/2016 - 06/2019

Skopje

General info

- A career switch, where I entered the IT industry. We managed the content of a client's website using an inhouse developed tool which was part of the admin console of the site itself. Apart from the day to day content management, we double served as beta testers for new version always on the lookout for bugs.

Receptionist Hotel Vlaho

05/2015 - 06/2016

Skopje

General info

- From room bookings to arrangements with 3rd party suppliers, the job was demanding from both organizational and communication perspective as soft skills are needed to manage the ever-demanding guests.

Biology Teacher Yahya Kemal

09/2013 - 06/2014

General info

- As a substitute teacher, apart from the usual teaching, I was able to further advance my English since the lessons were only English speaking.

SKILLS

Manual Testing

SQL

Operating systems (linux)

Microsoft Office

REST API testing

SCRUM

Automation testing

Defect reporting

Postman

PROJECTS

Wisdom To Go (08/2019)

- A project done by friends (one developer, one designer). They helped me get a real-life feeling of what software testing is.
- <https://wisdomtogo.flycricket.io>

Cargodom (06/2020 - 07/2020)

- As part of the Brainster academy we were writing test cases for Cargodom as well as some automated test scenarios.
