

# Milos Radonjic

Date and place of birth: 05.12.1983., Zemun, Serbia

Residential address: Kostolacka street 60, apt 48, 11000 Belgrade

Telephone:  +381 64 29 465 28

E-mail: [misha.radonjic@gmail.com](mailto:misha.radonjic@gmail.com)

SkypeID: [misha\\_radonjic](#)

LinkedIn: [www.linkedin.com/in/milos-radonjic-250b707a](http://www.linkedin.com/in/milos-radonjic-250b707a)

## Education

**Faculty of Electrical Engineering, University of Belgrade (ETF)**

**- Bachelor of Science**

Department: **Computer engineering and Information theory**

**Third Belgrade Gymnasium (High School), Belgrade**

**Vladislav Ribnikar Elementary School, Belgrade**

## Working Experience

**December 2018-ongoing – Senior Android Developer** at Soft Road Apps

(<https://www.softroadapps.com/>) – Belgrade

In my current job position at Soft Road Apps Company, I am a part of the team that is responsible for designing and developing mobile applications which are intended to integrate with wearable devices (glasses) constructed by Japanese manufacturer. Additional features and technologies also implemented in this application are Voice Recognition (Sphinx library) and GPS location tracking. In the design aspect of the app, we have followed Material Design guidelines and practices. In the terms of app development, we have followed latest Google's guidelines and recommendations and used Java with Android Jetpack, MVVM architecture, LiveData, Room Persistence Data Base Library... I also had the chance to obtain basic knowledge in Kotlin and iOS development.

**March 2017-December 2018 - Android Developer** at GRAWE Insurance company Ltd. – Belgrade

As an Android Developer at GRAWE Insurance Company, I was a part of the team that was developing internal Android and Web apps (**ASP.NET MVC**) intended for Grawe company branches in the broader region of South-Eastern Europe.

### **March 2016-March 2017- Junior Android Developer** at Cubes LLC –Belgrade

As a Junior Android Developer, in my job position at Cubes, I was giving contribution to the app development as a team member and also passionately learning as much as I could about Android development and Android OS in general. I am using the latest version of **Android Studio(Android SDK)** and **Java programming language** alongside with version control(**GitHub and GitLab**).List of some other interesting and helpful tools (apps, libs) that I used in development consist of: **Postman, Zeplin,Asana,Picasso,Glide,Otto,Volley,Crashlytics,iText,Paralloid...**

My GitHub and GitLab links are:

### **December 2015-March 2016- Internship as a software consultant** at CYCLE LLC - Belgrade

In my internship job position, I got familiar **with ERP Solutions based on .NET technologies (C#, Visual Studio 2010/2012 IDE) and Microsoft SQL Server 2012**, and tried to learn as much as possible in this area of expertise. In the same time, I am gained more experience in Customer support and Customer relations.

### **2012-2013-Serbian Association of Energy Sector Specialists**

IT support, I also provided translation services from English into Serbian and vice versa.

**I have obtained, during my university studies, very high grades in two essential exams related to Object Oriented Programming. These exams covered the area of C++, C# and JAVA programming languages.**

### **2005-2014-Manager of a cafeteria, in a small sports-center in Belgrade, during the course of several years**

During the Athens 2004 Summer Olympic Games, I was a part of SOFT TEAM (Serbian Olympic Fun Team) as a volunteer

## Foreign languages

- **English** – fluent, advanced and active knowledge(both speaking and writing)  
**Certificate in Advanced English(CAE)-  
Cambridge University Diploma**
- **French** - intermediate knowledge
- **German** –intermediate knowledge- **Certificate  
in German language (B2-level from Austrian  
Institute in Belgrade)**

## Personal characteristics

I possess excellent communication and presentation skills. I am determined and goal-oriented. I am always tolerant, a good and careful listener with strong sense of empathy and high stress resistance. Communicative, dynamic, reliable, ambitious, with proper working habits. I am able to learn fast, and to accept and implement new knowledge and skills. I am capable to adapt easily to the new environment, and I am committed to team work. I am open minded and very interested in meeting new people and getting in touch with different cultures and customs from around the world, and learning about them.

## Additional skills and experience

- **Certificate in Developing ASP.NET MVC 4 Web Applications(course attended at Informatika Ltd, Belgrade-Microsoft Partner-Silver Learning)**
- Driving license (B category)
- I am a former active athlete(handball and swimming). Nowadays, I am engaged only in recreational sports(mostly running, football and swimming).
- Extensive experience in travel, on several continents

## Student Projects

- Two individually and successfully completed project assignments in the field of Computer Operating Systems, in the Faculty of Electrical Engineering, University of Belgrade (**C++ programming language—Visual Studio IDE**)
- One individually and successfully completed project assignment in the field of Computer Architecture and Organization, in the Faculty of Electrical Engineering, University of Belgrade
- One successfully completed project assignment in the field of VLSI (Very Large Scale Integration) Systems, as a member of a team with a fellow colleague, in the Faculty of Electrical Engineering, University of Belgrade (**Verilog programming language**)
- One individually and successfully completed project assignment in the field of Compilers and Compiler implementation, in the Faculty of Electrical Engineering, University of Belgrade (**Java programming language-Eclipse IDE**)
- One individually and successfully completed project assignment in the field of System Software, in the Faculty of Electrical Engineering, University of Belgrade (**C++ programming language- Eclipse IDE**)
