

DARKO STOJANOVSKI

Full-Stack Developer

About Me

A highly motivated individual, who, in the coming period, wants to be maximally positively realized in the profession in which he has invested a lot of passion, energy, time, nerves, and expectations. I want to work in a modern software company that will appreciate my commitment and desire to learn and practice teamwork, synergy, and creativity in problem-solving

Experience

CreativeLabs.se

St.Clement of Ohrid, Bitola 7000

01/11/2023 - 01/05/2024

Engaged in developing client-side and internal projects, leveraging cutting-edge technologies including Nuxt.js, Vue.js, PHP, and WordPress. Demonstrating proficiency in utilizing version control systems, such as Git, to manage code repositories and ensure collaborative success efficiently.

Projects I've worked on:

- <https://www.pcm-ki.se/>
- <https://www.plent.no/>
- <https://podxgroup.com/>

BANZAE

Orce Nikolov 68/0. Skopje 1000.

01/03/2023 - 01/07/2023

I contributed to a fitness application by developing new features, providing technical support to colleagues, and resolving software bugs. Actively participating in team discussions, I offered insights for enhancing user satisfaction. Through thorough testing and staying updated on industry trends, I ensured the application's reliability and performance were consistently improved.
