I'm a UX/UI designer with two years of experience in creating user-friendly and visually appealing digital products. I use Figma, and Adobe XD to design wireframes, prototypes, and UIs that meet user needs and business goals.

Additionally, I work with Illustrator and Photoshop to create visuals and enhance the look of what I'm working on.

I also have some knowledge of HTML, CSS, and JavaScript to collaborate with developers and ensure smooth implementation. I'm passionate about solving problems with empathy and creativity, and I'm always eager to learn new skills and tools.
