ABOUT ME

I am a passionate Web developer with 3 years of experience in designing and developing Web sites and web related projects. Also I have experience in cross-platform applications development, mobile responsive design, developing REST API, developing web crawler and data processing.

WORK EXPERIENCE

Web developer

X3M Labs [April 2018 – December 2020]

Digital Orange - Current

TECHNOLOGIES

**PHP / Laravel/ JavaScript / SvelteJs /ReactJs/ PostgreSQL / Bootstrap/ Apache Cordova/
Nodejs/Docker**

PROJECTS

REST API for device synchronization and creating a Website

[Nov 2018 – Dec 2018]

On this project I have worked on my own as a full stack developer. I have developed a REST API which provides synchronization of the users' game data between multiple devices and platforms..

Technology used: PHP, MySQL

Developing a mobile application, health-related

[Jan 2018 – Current]

On this project I have worked as a full stack developer in a team of 5 people. We have developed a web crawler for crawling health-related websites, and processing the related web data. We also developed algorithms for calculation of the websites ratings, sql scripts for database synchronization, and also implemented full text database search. For the whole system we created an admin panel from which you can

Whole backend on a food ordering web app

<https://erbertaziende.it/>

control the whole system, get crawling stats and manually control the crawlers with cron jobs. The final product was cross-platform mobile and web application. fetching data from REST API for the mobile and web application

Technology used: PHP, SvelteJS, JavaScript, NodeJS, ApacheCordova. PostgreSQL,MySQL, Sphinx, Docker
