Profile

Highly motivated individual with excellent communication, computer and organizational skills looking for a responsible position to gain practical experience, secure employment with a reputable company, where I can utilize my skills and geography studies background to the maximum. I am ambitious, social, communicative and an eager learner. As a geographical information system (GIS) student I learned how to gather, manage, and analyze data. I can analyze spatial database information and organize layers of information into visualizations using maps and 3D scenes.
