01 PROFILE

Currently studying software engineering and newly certified junior full-stack developer, where I am achieving great success and skills which I would like to apply as soon as I can so I can achieve the experience that is necessary for me to reach the career I have always dreamed of.

My baggage of knowledge in several programming languages, databases, libraries and frameworks. Also possessing a set of skills as great time management, strategic thinking and the ability effectively self-manage during independent projects, as well as in team working. Taking into consideration previously mentioned qualities make me a great addition in a team.
