ABOUT ME

Junior Developer with a Bachelor's in Mechanical engineering, primarily focused on front-end web development, along with practical knowledge of various other technologies and principles.

I am eager to continue my career by joining a hardworking and interactive web development team where I will continue expanding my web development knowledge.

Currently, my work is mainly focused on working with front-end technologies: ReactJS, JavaScript, Typescript, SASS, Bootstrap

WORK EXPERIENCE

08/2021 – 11/2022 Skopje, North Macedonia

R&D Engineer Vanhool

As a mechanical R&D engineer at Vanhool, I had the chance to develop and work with one of the most advanced technologies in the automotive industry as well as the new electrical systems which are developed for the future, cleaner and leaner vehicles.

08/2020 – 10/2020 Prilep, North Macedonia

Mechanical engineer intern Mikrosam

As a mechanical engineer intern in Mikrosam, I first worked with Autodesk Inventor to develop CAD models and technical drawings to get them ready for the manufacturing process. I had the opportunity to work on real models and learn how to use GD&T (Geometric Dimensioning & Tolerancing) properly.
My second part of the internship was learning the CNC Machining process (mill, lathe) and how the G-code works. Then I started working with the CAM program Mastercam to create the G-Code and get the model ready for the milling/lathe process. Throughout this process, I learned how to use the proper speeds and feeds, as well as the right tools for different models and materials.

01/01/2017 – CURRENT Skopje, North Macedonia

Graphic design specialist Upwork.com

https://www.upwork.com/freelancers/~012ecc666e40f57a62

01/08/2019 – 01/09/2019 Skopje, North Macedonia

Mechanical engineering intern Mak Autostar

As my starting point in my knowledge and improvement in the field of mechanical engineering, was learning all about the parts and construction of a vehicle through my internship in Mak Autostar.

EDUCATION AND TRAINING

11/10/2017 – 2022 Skopje, North Macedonia

Mechanical engineer Direction - Automotive engineer Faculty of Mechanical Engineering; "Ss. Cyril and Methodius" Univeristy

Address Skopje, North Macedonia

React - The Complete Guide (incl. Hooks, React Router, Redux) Udemy.com
