- Computer Security
- HTML
- CSS
- JAVA / JavaScript
- Data Entry / Research

Languages

- English
- Macedonian

Experience

2021 - 2022

Freelance – Data Entry Specialist
- I have worked on several data entry projects as a freelancer. These projects involved accurately inputting and managing large volumes of data, maintaining data integrity, and ensuring timely completion of tasks. My experience includes using various data entry software and tools, adhering to project guidelines, and collaborating with clients to meet their specific needs.

Certifications

2022 - 2023

A1 Academy for Digital Marketing - I have basic knowledge in digital marketing and SEO. I understand the fundamental principles of digital marketing, such as content creation, social media management, and email marketing. I can use tools like Google Analytics to track website performance and have a general understanding of how to improve search engine rankings. This foundational knowledge allows me to contribute to digital marketing efforts and support the growth of online presence

Education

Faculty of Computer Science and Engineering   2021 – PRESENT
- I am currently studying at the Faculty of Computer Science and Engineering. I started my studies in 2021 and I am still graduating. I have mastered data structures, algorithms, and various other computer science concepts during my studies at the Faculty of Computer Science and Engineering. Additionally, I am proficient in using Microsoft Office applications.

High School SOTU - Gorgi Naumov   2017 – 2021
- I graduated from high school with a focus on Computer Engineering and Automation.
