Elanur Lilai

Front-end Developer

👤 Profile

Enthusiastic Junior Front-End Developer with a desire to learn and grow in a collaborative team environment. Skilled in React, HTML, CSS and JavaScript. Seeking an entry-level position to use my skills in coding. troubleshooting complex problems and assisting in the timely completion of projects.

💼 Employment History

Front-end development with React JS at Clony.io

May 2021 — Present

Clony.io is a copy trading platform, where investors can copy professional traders using their Binance Api keys. Project uses both trader's and investors` binance accounts and creates a channel between them where every action of trader is copied into investors' account.

For Clony.io, we are using latest technologies such as Javascript es6, react hooks, context for state management, ZenHub for task management and GitHub for source control. We did component style coding and reponsive design.

Technology stack: Laravel, React, Aws, Forge, ReactPHP
