Nikolina Mladenovska

Electrical Engineer

About me:

I am a customer complaint management engineer working in company named Marquardt Group located in Macedonia. I am organized person, who has a strong ability for attention to details, also skilled in problem solving analysis, FMEA and 8D reports. Having supported as quality assurance engineer, my abilities also contain managing KPIs, first time failures, part analysis on failure parts and quality of finish good products. Taking in consideration we work in teams, I found myself good with people management and teamwork, as well as working during stress situation.
