Tihomir Lazarevski

IT professional with more than 2 years of software testing automation and development experience, as well as mobile testing. Experience in analyzing and testing all segments of web applications/ mobile, using frontend/backend test automation tools. Beginner in security/pen-testing. My experience is in different levels/types of software testing: system testing, functional, acceptance testing and regression testing implementing black-box as well as white-box testing techniques following the standard STLC phases.

Employment

QA Consultant   **Present**
IW Connect, Bitola

I have worked on several projects that tested mobile and web applications, using many automation testing tools, including 'Concept JS', 'Robot Framework', and 'Nightshift JS'. I also have experience in using tools such as 'Gitlab', 'Github', 'Jira' with 'X-Ray', 'Testrail', 'Appium', and many more.

Mine Shift Leader
"SV Invest" agency for "REK Bitola"

Supervise the overall day-to-day performance, coordination, management, and maintenance of the specified mining shift to assist and obtain maximum productivity, efficiency, quality, service, and profitability for the organization while upholding all aspects of compliance and standards. Also responsible for workers' salaries, efficient running of the team, team's safety, good communication, and ensuring that the shift team is focused.

Real Estate Agent
Real estate agency "Siguren Dom", Bitola

Highly experienced in buying and selling properties, good knowledge of real estate laws and procedures, wide knowledge of people management procedures, familiarity with marketing techniques, ability to convince customers to buy properties, and ability to develop good relationships with prospective customers.
