PROJECT 1

Title: CV Project
Technical Environment:
HTML5, CSS, Javascript, React JS.
Description:
This project is, constructed for CV`s and portfolios, concretely for people in the IT industry.
It cointains four separate branches such as :
- Web Development,
- Data sience,
- Data marketing,
- Design.

Every branch contains CV`s which are editable, and they have option to be printed in PDF format. Also there are two other branches: Linkedin and Laika, where we can see installed slider with pictures. Additionally on the mouseover, we can notice tips popping up sideways.
