SUMMARY

SUMMARY
For the last 4 years I have been an JavaScript/TypeScript/VueJS/NodeJS web developer. I am also familiar with other programming languages.

I currently work as a frontend developer, mostly on document flow projects.

In terms of graphics editors I use Photoshop and Illustrator. I have freelancing experience.

EDUCATION

Bauman Moscow State Technical University, BMSTU
Faculty of Informatics and Control Systems
Department of Information Processing and Management
Bachelor
Years of study: 2013 - 2017

Theme of the thesis:
"Web Application of the Universal Search System"
Average score: 5(A)

WORK EXPERIENCE

CROC INC, 2018 - ONGOING

CERTIFICATES

Microsoft 480: Programming in HTML5 with JavaScript and CSS3

NestJS - writing an API for a real project from scratch

SKILLS

I am interested in front-end technologies, going to meetups, as well as developing applications in NodeJS. You can see examples of my work and developments on my github:

https://ragazzimoscow.github.io/LangSchool/
https://ragazzimoscow.github.io/HotelsSearch-Vue/
https://ragazzimoscow.github.io/Smile/

https://github.com/RagazziMoscow/mediumclone-nestjs
https://github.com/RagazziMoscow/logs-api-site
https://github.com/RagazziMoscow/turn-on-off-wifi

In terms of frontend, I use the following technologies and libraries: VueJS, TypeScript, Gulp, Grunt, Webpack.

To develop an application on NodeJS, I used Express, Sequelize, NestJS, TypeORM frameworks and PostgreSQL DBMS. I am also familiar with the writing procedures in PL/pgSQL.

For programming tasks, I sometimes use Ubuntu Linux OS. I am also familiar with Python, I studied C++ and C# at the University.
